

High School Invitation

The laptops are arriving in your schools and as promised we have established a meeting time for the high school leadership teams.

This meeting will focus on the following details:

- Implementation
- Goal setting
- Professional development opportunities
- Roll out for faculty and students-tips from our middle school program
- Information for parents, school board and press
- Laptops going home

What do you expect will change in the classrooms given this new environment, new tools and resources?

What does the leadership need to do to make it happen?

What are the challenges for my particular school?

These are questions that you may wish to explore with your colleagues and the MLTI/Apple staff.

We have attached a recent article, by Richard Murnane, economist at Harvard that raises some important issues about computers and their place in the workforce.

We have arranged for meetings to be held in three locations:

OCTOBER 19 - Houlton Higher Education Center in Houlton

OCTOBER 20 - Mt. Abram High School in Kingfield

OCTOBER 21 - Yarmouth High School in Yarmouth.

The meetings will begin at 8:00am and end promptly at 12:00 noon. Please register at: <http://www.createsurvey.com/c/20491-x5g0iM/>

Please list the names and positions of those attending and any items you would like to see added to the agenda.

We will have wireless access so please feel free to bring your laptop. Attached is an article we encourage you to read as a setting for this new journey.

Regards,
MLTI Staff
